

Recipe App Proposal - Caleb Beazel

Key Features (MVP)

- add a recipe
- search for a recipe by ingredients
- Delete recipe

Other Info

- storing recipes as JSON files in a separate file.

ex:

```
{
  "name" : "spaghetti",
  "instructions": "Here's everything you need to know to make spaghetti...",
  "cook time" : 15,
  "ingredients": [{"name": "pasta", "quantity" : "6oz"}, {"name" : "spaghetti sauce",
"quantity": "1/2 cup"}, {"name" : "ground beef", "quantity" : "1/2 lb"}]
```

Stretch Goals

- Create a database to store ingredients and recipes.
